

## **Position: Project Manager**

### **Position Description**

The Project Manager reports directly to the Director of Construction. The successful candidate will be responsible to provide critical input and experience-based leadership for renewable energy project execution, internal process improvement, project-specific permitting activities, site evaluation, procurement, scope documentation, stakeholder management and construction coordination. More specifically they will leverage the following skill sets and competencies to support the company's activities:

### **Required Skill Set and Competencies**

- Provide assistance with project development including site evaluations, fatal flaw analyses, estimating, general project due diligence, etc.
- Manage or assist in permitting of PV projects
- Manage or assist in managing commercial solar projects from 1 – 10 MW
- Project scheduling (critical path and milestone)
- Coordinate and manage subcontractors - closely collaborate with Aegis construction-site supervisors to provide timely and best-practice solutions to field challenges
- Interface with and manage product / equipment vendors and project material procurement
- Generate and organize ongoing project documents and consolidation of closeout documentation
- Build on and improve existing project management, project evaluation, and permitting processes
- Perform other project management duties as assigned.

### **Other Requirements**

- Minimum of 5 years relevant construction project management experience, including direct supervision of PV projects over 1 MW
- B.A. / B.S. degree in a relevant field of study desirable
- Excellent verbal and written communication skills
- Strong quantitative and analytical skills, with high proficiency in Microsoft Excel
- Exceptional organization skills
- Ability to rapidly integrate new concepts, standards, and processes into the company toolbox
- A desire to work on projects related to alternative energy, and community sustainability
- Self-motivated with proven ability to perform at a high level with limited direct oversight and management
- A desire to learn and a commitment to communicating limitations
- Experience working both independently and, in a team-oriented, collaborative environment
- Demonstrated success at building team relationships focused on mutual respect and a positive attitude
- Understanding of the importance of standard operating procedures, safety, respect, and integrity
- Commitment to providing exceptional customer communication and service

### **Compensation**

- Base Pay and Benefit package is market competitive and commensurate with experience and qualifications.
