

## **Position: Solar Operation and Maintenance Technician**

### **Position Description:**

The Solar O&M Technician reports directly to the O&M Manager. The successful candidate will be responsible to provide technical support for renewable energy operation and maintenance activities. More specifically, he or she will leverage the following skill sets and competencies to support the company's activities:

### **Required Skill Set and Competencies**

- Perform O&M activities and closely collaborate with Aegis management to provide timely and best-practice solutions to PV system maintenance issues
- Strong electrician skills ideally with a Journeyman or Master Electrician license
- Follow material intake / inventory control and handling processes
- Assist with product / equipment vendor communications and project material procurement and returns
- Follow established processes for utilization of service management software and document control
- Provide assistance with project development including site evaluations, measurements, and assessment
- Perform research and analysis on solar energy technology, service, and maintenance, and troubleshooting procedures and best practices

### **Other Requirements**

- Minimum of one year of experience as an operation and maintenance technician
- Excellent verbal and written communication skills
- Strong quantitative and analytical skills
- Average computer (PC) proficiency
- Average proficiency with Microsoft Office Suite, and email
- Good organization skills
- Self-motivated with proven ability to perform at a high level with limited direct oversight and management
- A desire to learn and a commitment to communicating your limitations
- Experience working both independently and, in a team,-oriented, collaborative environment
- Operates from an understanding and demonstration of emotional intelligence with a positive attitude even in the face of adversity
- Understanding of the importance of standard operating procedures, safety, respect, and integrity
- Commitment to providing exceptional customer communication and service
- Comfortable working in all weather conditions, locations, and uneven terrain
- Capable of lifting up to 50 lbs and working in the field for long periods of time

### **Compensation**

- Base Pay and Benefit package is market competitive and commensurate with experience and qualifications.
